Partner conference in Kigali / Rwanda in May 2023

Dear representatives of the weltwärts implementing organizations,

On behalf of the Federal Ministry for Economic Cooperation and Development (BMZ) and the Program Steering Committee (PSC) of the weltwärts program, we would like to announce the fourth partner conference for East Africa.

The conference will take place from **May 7th to 12th , 2023 in Kigali, Rwanda**, to which members of the implementing organisations and partner organizations from Rwanda, Uganda, Kenya and Tanzania will be invited.

Partner conferences intensify the cooperation and networking between partner organizations from the countries of the Global South (PO) and German implementing organizations (IO). They also offer a good opportunity to discuss program-related issues with representatives of the PO and PSC.

POs can take part in the partner conference regardless of their IO's participation. IOs are also invited to the conference, provided that at least one of their POs takes part. It is recommended that cooperating IOs and POs take part in the partner conference together. For ecological and resource-saving reasons, it is welcomed if IO combine participation in a partner conference with intermediate seminars and / or partner visits as far as possible.

Please understand that, as a rule, only one person from each organization can take part in the conference.

The topic of the conference will be topics introduced by the organizations present as well as exchange and networking.

The conference will be held in English.

The official invitation to the conference with registration form and detailed information will follow.

We would like to ask you to send this **save the date** to your partner organizations in the countries mentioned above.

For further information, we are happy to help you.

Kind regards

on behalf of the inviting organizations
