

## Explanation of relevance of topics for weltwärts-program-steering-committee

### Programme steering level:

This is where the Programme Steering Committee (PSC) or the Federal Ministry for Economic Cooperation and Development (BMZ) specify/agree the programme-wide, binding frameworks (which apply to all programme shareholders) for financial matters and weltwärts-specific content, define common objectives and quality standards and develop performance-measurement tools (e.g. catalogue of quality standards, programme logic model and programme theory).

### Programme implementation level:

Implementing organisations and their partner organisations implement the weltwärts programme in accordance with the framework described above and the applicable guidelines, based on individual agreements and within a common quality system (e.g. preparation of and support for volunteers, management of funding from and reporting to Engagement Global).
