

## **Intended outcomes for the weltwärts Exchange Projects funding line**

### **Intended outcome 1**

The weltwärts Exchange Projects funding line enables youth groups from Germany and Global South countries to visit each other and conduct joint projects dealing with one of the 17 Sustainable Development Goals (SDGs) set out in Agenda 2030. In line with SDG 17 and the principle of reciprocity, weltwärts Exchange Projects promotes the establishment of global partnerships through partnership-based youth exchange.

### **Intended outcome 2**

The weltwärts Exchange Projects funding line nurtures and strengthens non-formal youth exchange structures. The personal interaction in these extracurricular youth exchange projects gives the participants the opportunity to discover different lifestyles and societies, equipping them with the skills they need to become global citizens. The participants identify possibilities for action to promote the SDGs (both with immediate and long-term effect) and develop an awareness of their role as global actors as outlined in SDG 4.7.

### **Intended outcome 3**

The weltwärts Exchange Projects funding line leads to strengthened participation structures in youth work, youth education and development cooperation through training for civil-society youth-exchange facilitators as well as the creation of networks and their integration into global processes.
